

Registration

- All the students appearing for placements are supposed to register on the Placement Portal with the

relevant details and credentials. This is essentially a two-step process:

1. Payment of Placement fees

a. Students need to pay a registration fee before the decided deadline. The fee is ₹2500 for PhD students, ₹4200 for BTech and Dual Degree (21 and 22 batch) and ₹2500 for MA, MSc, MTech, MBA (23 batch onwards) (incl of GST).

b. Further instructions and details regarding the mode of payment shall be given later.

2. On payment of the fees, the student will be sent a login ID and password (which can be changed later)

to create their account on the portal. Please refer to the Portal Registration document (which will be shared before the Registration process) for detailed instructions on steps for registering on the portal.

- Through this account, the student can upload resumes, view companies as they register, check the profiles and packages being offered, apply to the companies of their choice, keep a track of the test and

PPT schedule and view shortlists.
